Cemetery & Crematorium Association of British Columbia

Dear Sir and Madam:

I am writing to apply for any opportunity for any part time or full time beginner position for funeral services related position.

Hi, I'm a student of BCIT first year interior design program since 2008. Also, I have been studied at Douglas College for general study. Although I haven't finished the program, within this program I had studied different type of courses including six different types of psychology courses, Social cognitive psychology, Social psychology and cognitive psychology. For language, I can speak both English and Cantonese.

The reason for me to write this application is that I'm interested in funeral service, because I enjoy helping other people and this also my second goal/career, in which it will be focus separately. When a person passes away, their family or friend will be going through a very difficult time. I also believe that when someone passing away, that doesn't mean it is all ended. The fact that they once live should be remembered by everyone It should be exists in people's mind and should be honoured. I hope that I can have a chance to work funeral related work; as well as to become a funeral director. I hope that that I 'm suitable for working with anyone who is interested and I ensure that I will work hard for the job.

I am looking forward to hear from you and I can be reached by phone: 604 – 657 - 2652 or e-mail at sumkit.yue2@gmail.com and I hope to hear from you soon. Thank you for your time and thank you very much.

Sincerely,

Yue Sum Kit (Gary)
